**REGISTRATION—
CONSECRATION DAY.**
(September 12, 1918.)

And now—you men who have stood by While they went forth—perhaps to die— These drafted lads who day by day In loaded transports sail away— You men who've seen them in their might Depart—these youths—to fight your fight—

Now that the new draft bill is through, How does the matter stand with you? Will you make answer fair and square

When you fill out your questionnaire? Prepare you—man! The witness stand

Is calling you to show your hand— To prove how much is Patriot. And how much blather and pure rot— How much of service—not of gold— You would give up or would withhold—

How much exemption you would claim, And by what right you ask that same.

You may be one who thought no doubt That somehow things would straighten out

And peace would come—and you be free Still to work out your destiny— Your dream of love and love of life— With equal hate of blood and strife, Why, untold millions have gone through

Those same emotions—dreamed like you. Your case can boast no circumstance Without some parallel in France, And though each one has known the pain

Of sacrifice—he's learned the gain— The priceless prize of service free, Laid at the feet of liberty.

Oh, man, go forth—eyes toward the goal, With selfishness purged from your soul,

So that your registration may become your consecration day, And whoso'er the summons be— To shipyard or to factory— Or to the battle fields of France— Go proudly forth—look not askance— Right radiant to offer all Your life can give to meet that call.

EDITORIAL DEPARTMENT OF THE BRYAN WEEKLY EAGLE

The Slacker and the Renegade Lawyer.

It has just about gotten so in this country that those who, early in the days of the selective draft, sought to camouflage their plain duty to their country by specious pleas of dependents and industrial claims have fallen much in the respect of the people of the communities in which they live. No matter how respectable they may be or what efforts they may have made to overcome the handicap they placed on themselves, people will talk of them, look over the shoulder and wink when their names are mentioned in connection with the war. And along with them are some lawyers—we would call them attorneys at law if they were worthy the respect implied by the slightly more dignified term—who have helped some of these fellows to escape the draft. And they are now as deeply in the mire as the fellows they helped are in the mud; deeper, in fact, for they not only have lost the respect of their fellows but they stand a pretty good chance of being disbarred from practice. Those who have seen the play, "Uncle Tom's Cabin," will recall that despicable renegade who introduced himself with the set formula, "I'm a lawyer and my name is Marks." Those who are familiar with the acts of these few lawyers under discussion will not fail to recognize a similarity between them and Marks.

The selective draft agencies in Texas have taken up this matter and Major Townes, who has charge of the enforcement of the law in this state, has sent a circular letter to all exemption boards asking that wide publicity be given the matter. Summarized he says that there are lawyers in Texas who have stooped so low as to seek by their influence to get registered men into deferred classification regardless of their entitlements thereto. They have taken the position that their influence was sufficient to cause this to be done, thereby constituting an implied bribe, for if they had influence the board was not a just board and if they had no influence they were fleeing their clients. Either way we look at it, a crooked deal was attempted, and one that sought not only to deprive the United States government of material for its armies in time of dire need but also tended to make a farce of the whole selective draft act. If the selective draft law is not administered with justice as perfectly exact to all as is humanly possible, it must be a failure. It is the finest piece of legislation ever enacted for the raising of an army if justice is done by the local exemption boards and the district boards. Without justice in its administration chaos will soon reign. John

TABOR.
Tabor, Sept. 4.—Farmers are still busy picking cotton. Hands are so scarce that it keeps everybody busy to get their cotton out before it wastes. We think most everyone has decided to "work or fight."

Paul Wiley has been home from Great Lakes on a furlough. He reports all of our boys doing fine and getting fat. Paul will leave tonight for the Great Lakes.

Rufus Batten, one of Cottonwood's most prominent young men, will leave Wednesday for Camp Travis. We wish for him good luck and a speedy return.

The young folks enjoyed an ice cream supper at the home of T. D. Locke Saturday night.

Rev. Storey filled his regular appointment at high school Sunday afternoon.

Misses Gladys and Laura Broach and Tillman Moore went kodaking Sunday afternoon.

Miss Mary Benbow has returned home from San Antonio, where she has been visiting relatives for the past few weeks.

There is going to be an ice cream supper at Tabor high school Friday night, Sept. 6. Everyone is invited to come and bring a freezer of cream, cake, candy, sandwiches, or anything you think might sell. The money goes to help pay for the piano.

THE BEST PROOF.
Given by a Bryan Citizen.
Doan's Kidney Pills were used—they brought benefit.

The story was told to Bryan residents. Time has strengthened the evidence. Has proven the result lasting. The testimony is home testimony—the proof convincing.

It can be investigated by Bryan residents.

P. J. Vytopil, 608 Mosley street, Bryan, says, "My back ached so it was hard for me to do my work because I had to stand so much. At night my rest was broken on account of the weak condition of my kidneys. A short use of Doan's Kidney Pills cured me and I have no such trouble now."

Over seven years later Mr. Vytopil said "The cure Doan's Kidney Pills made has been lasting."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Vytopil had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

HARVEY.
A large crowd assembled at the Harvey church Sunday at 11 a. m. to witness the marriage of Miss Tommie Todd to Walter J. Crews. The church was prettily decorated with ornamental grasses and ferns. Miss Lavada Goen played an instrumental solo, "The Flower Song," followed by Mendelssohn's march, to the soft strains of which the bridal couple marched in and were met at the altar by Rev. Chas. Bullock, who in a short but impressive ceremony united their lives. The bride wore a becoming going-away suit of chocolate brown satin with Georgette collar and sleeves, with hat and shoes to match. Immediately after the ceremony they left in an auto for Bryan to catch the 12:30 train for Lindale, their future home.

Smith's boy was excused without justification and Bill Jones justly feels that he is entitled to the same consideration. And thus it goes. Eventually, the administration of the law would result in nobody going except those who would have volunteered anyhow, and history has taught us how much reliance can be put on a volunteer army system. We could not have had a million and half men in France in five years if we had relied upon the volunteer system. Not that the people are not patriotic, but they can not be brought so quickly to see the necessity of action of this magnitude. They have all sorts of views about what ought to be done. They will argue that 100,000 men over there would be as good as a million men, until the contrary was demonstrated to them. And thus it would go, and the exemption boards would have nothing to do but receive the names of volunteers and pass them on to the army surgeons. But it appears that practically every board has done its duty purely from a patriotic standpoint, although there may have been a few diversions from the path of rectitude. There has been little more complaint of the system than would be found in regard to the execution of any law that called for the doing of a distasteful duty. In fact it has about gotten so in this country that young men are not only ready to go when the call comes, but many of them would like to go ahead of time. They are "raring" to go, because they want to get into the big Hun hunt before the game is all killed out. And they are afraid it will all be over before the war department can get action on their cases. They see the need, they see the opportunity for excitement and glory, they see that they will be the honored sons of the republic when they return. It is as Major Townes in his letter says:

"A million and one-half of our young men have entered the service and gone abroad, many of them to die. If they can make this great sacrifice, and give their all for their country's service, then any lawyer who stays at home, protected by their efforts, and who is unwilling to aid and assist each registrant in a legitimate way without compensation, is unworthy of membership in an honorable profession and unworthy of American citizenship."

The letter terminates with the declaration that "several million men will come marching home from France one day, and they will return to every village and hamlet in this country, and will bring woe to the slacker and the 'renegade' lawyer who helped him evade the draft while brave men fought and died."

Miss Tommie was quite a popular young lady, possessed with many sweet attributes that make woman lovely and useful. The groom is a stranger to us but no doubt worthy in every way of his young bride. May long life and happiness be theirs with just enough shadows to make them appreciate the sunshine, is the wish of the community.

For the benefit of the public we wish to say there are two churches here, known as "Harvey" and "Bright Light" which will be designated in future as F. B. (for Free Will Baptist) and M. B. (for Missionary Baptist) which will save confusion and mistakes. Our flag service was held last Saturday at Bright Light, not Ligier and at 11 a. m. not at night, as the Eagle had it last week.

Dempsey Dyers has a position now at College Station. He visited his parents, Saturday and Sunday.

Our school will soon open with Cowan as superintendent and principal and Misses Vesta Pate and Essie Jones, teachers of intermediates and primaries.

Several of our neighbors are sporting new cars this week. Will Goen, Will and Sam Jones and Mrs. Bertha Turner.

SHERMAN SCORES ADMINISTRATION AND TEXAS POLITICIANS

Senator From Illinois Attacks Col. House, President's Advisor and Friend.

Washington, Sept. 4.—In a lengthy prepared address on what he called "unofficial and personal government," Senator Sherman of Illinois, Republican, made a scathing attack in the senate today on President Wilson and his administration and particularly Colonel E. M. House, the president's personal friend and adviser.

With ironical references to the president's recent statement that politics is adjourned, the senator asserted that, having elected the president, "almost single-handed," Colonel House and a coterie of Texas politicians, "are in the saddle and they are doing politics in the same old way."

Under pretense of war powers, he said, the administration is placing control of the country in the hands of a few politicians and labor leaders, to be used relentlessly for the election of party candidates now and a president in 1920.

"I denounce," he added, "a political autocracy covertly engaged in when the nation is in the stress of war in undermining institutional civil liberty."

Colonel House was characterized by Senator Sherman as "this alleged, unelected, unofficial assistant president." The senator gave an analysis of a novel said to have been written by Colonel House, which he describes as an autobiography telling a tale of politics, civil war, love and reform with a meat ax, showing how to get rid of the constitution.

Secretary Baker was referred to as "one who thinks of the war as three thousands miles away, talks glibly of quantity production, of combat airplanes, delays three months the draft law amendment of 1918, opposes universal military training, and says Washington's soldiers at Valley Forge were drunkards and chicken thieves, only to be declared by executive proclamation to be the most capable official that distinguished functionary ever knew."

Regarding Secretary of Commerce Redfield, Senator Sherman said he had made "some sparkling contributions to trade," including the "shocking information that high cost of living was caused by too many delivery wagons; an epic on fish and clams, along with a sonnet or two on sheep-killing dogs."

Former Secretary Bryan, the senator declared, resigned when he had "played second fiddle long enough, and his power for harm had waned."

In criticizing Colonel House, Senator Sherman said as personal representative envoy of the president while abroad he "exercised unofficial and usurped powers of government," and "his gratuitous advice to settle the U-boats dispute provoked the derision of Germany and the impatience of the allies."

Declaring the administration seeks even to dictate Republican candidates in Republican states, the senator said, "Ford is to be made senator from Michigan by executive order."

Denouncing what he described as socialistic plans of "a coterie of politicians gilded and plated by a group of theorizing, intolerant intellectuals," Senator Sherman continued:

"Government control is a mere name. As now exercised by this administration it is the threshold of permanent political ownership and domination."

"On all questions related to labor, Gompers is practically president. Burleson controls the physical agencies for communication of thought, and McAdoo the railway's and country's finances. Strip off the mask of alleged ownership and see in its the revealed political ownership and control of Gompers, Burleson and McAdoo for partisan purposes, to be used relentlessly to elect partisans now and in 1920 a president.

"Politics adjourned. Worse, more rampant, rancorous, partisan politics never abused the patriotism and generous confidence of a great nation. Against the clandestine partisan politics of this administration, hidden under thick cloths of war, I raise my voice seasonably in remonstrance."

When Senator Sherman began to speak, practically all the Democratic members left their seats and went to the cloak rooms. Most of the Republicans paid close attention to the speech.

**EVER SALIVATED BY
CALOMEL? HORRIBLE.**

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick and the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

MARCHING THROUGH GERMANY.

Floyd Murray, a school boy of Reliance, aged 12, has composed this rousing song, which is to be sung to the tune, "Marching Through Georgia."

Bring that good old bugle, boy, we'll sing another song,
Sing it with a spirit that will start the world along,
Sing it as we've planned to sing it five million brave and strong.
While we are marching through Germany.

Chorus.
Hurrah, hurrah, we'll bring the jubilee,
Hurrah, hurrah, 'tis the flag that'll make you free.

So we'll sing the chorus from Berlin to the sea,
While we are marching through Germany.

What a hearty welcome our boys have had in France,
How we've had the toast, the pie, the music and the dance,
How the steeds we'll carry ever'll leap around and prance,
When we're starting for Germany.

(Chorus)
"Pershing's dashing Yankee boys will never do a thing,"
So the saucy boches said and sure it wide did ring.

Had they not forgot, alas, tune of the song we'll sing
While we are marching through Germany.

(Chorus)
So we'll make a thoroughfare for freedom and her train,
Five hundred miles to Berlin, we'll rush as thick as rain.

Old Bill will flee before us, for his fighting is in vain,
While we are marching through Germany.

(Chorus)
And when we capture Berlin and find old Kaiser Bill,
We'll "can" the cruel tyrant with hearty good free will.

Then we'll sing our song in triumph and with joy our hearts will fill,
While we are marching through Germany.

The ration consists of ground meat and wheat pressed into a cake and a block of sweet chocolates. The ration corresponds to the "iron ration" of the British troops and will sustain a man for days.

**TWO HUNDRED KILLED
IN CLASH WITH VILLA.**

El Paso, Sept. 4.—Two hundred were killed last Thursday in a battle which lasted all day at Pilad de Concho, southwest of Chihuahua City, between the federal command of General Ernesto Garcia and Francisco Villa.

One hundred and twenty federal soldiers were killed and 805 Villa followers lost their lives. This information was brought here today by an American from Chihuahua City.

When Garcia's men reached a rendezvous suggested in the order and flashed the signal, Villa's men attacked, an order and a signal having been a part of Villa's scheme to lure the federalists into a trap, according to the American.

General Garcia returned to Chihuahua City, obtaining 600 fresh troops and is now pursuing Villa in the vicinity of Niaca.

Preparations to resist an attack by Villa on Chihuahua City on the night of September 15 are in progress and sappers are building elaborate defensive works and gun emplacements near the city.

You corn-pestered men and women need suffer no longer. OVER MILLION AND HALF EMBARKED FOR FRANCE TO DATE

(By Associated Press)

Washington, Aug. 31.—American troops brigaded with the British and French are being withdrawn as rapidly as possible to join the first American field army under General Pershing, General March announced at the conference with members of the senate military committee today.

The chief of staff threw no light on the part Americans are playing in the present offensive but the impression was given that the program of concentrating the army for action under General Pershing is going forward satisfactorily.

American soldiers embarked for France number more than 1,500,000. One million two hundred and twenty thousand were landed in France previous to August 7, and several hundred thousand have been landed since then, says March.

STATE LAW ON KILLING DOVES TO BE ENFORCED.

County Attorney Lamar Betha calls attention to the fact that under the law enacted by the last session of the legislature the open season regulating the killing of doves differs in certain portions of the state. In other words, according to the law, doves may be killed from September 1 and including October 31 in counties of the state lying north of a line marking boundaries of the counties of Shelby, Nacogdoches, Angelina, Houston, Leon, Robertson, Falls, Bell, Lampasas, San Saba, McCulloch, Concho, Tom Green, Irion, Reagan, Upton, Ward, Loving, Culberson, Hudspeth and El Paso. The law, however, defines the closed period on doves, saying that it shall be unlawful to kill any dove during the period of time embraced "between the first day of November and the thirty-first day of August of any year," in the counties above mentioned.

Another section of the law permits the killing of doves between December 1 and February 1. This section applies to the counties lying south of those establishing the line above mentioned.

Considerable confusion has arisen over the dates governing the closed season because of conflict between the federal and state laws fixing the time for killing of doves. Attorney General Looney, however, has held that the state law supersedes the federal statute, which fixed the date of the open season between September 1 and December 15, pointing out that the federal law has been held unconstitutional.

**SOLDIERS ENJOY BANQUET
AS GRADUATING AFFAIR.**

Members of the graduating class of the radio-mechanics, who as soldiers of the United States army have been going to school for the past few months at A. and M. college, gave a banquet last night in the room next to the New York cafe, which catered to the affair. Plates for 120 officers and men were placed on the long tables in the elaborately and patriotically decorated room, and there five courses were served in such excellent style that Private Rogers, to whom had been assigned the task of looking after the arrangements, made a very flattering speech commendatory of the rations and the service. And there were other speeches galore, some of them of a farewell nature, because the boys expect in the due course of events to be moving along in the general direction of Germany. Many were the felicitations, the happy songs and loud exclamations of the boys. The banquet started at 9:15 o'clock, was served in five courses and ended at midnight, a special interurban car having been engaged to return them to camp.

An interesting feature of the occasion was the hand painted menu cards, which will be retained by the boys as souvenirs of a very happy three hours.

COLLEGE STUDENTS TO DRAW ARMY PAY WHILE THEY STUDY

Rank of private with \$30 per month each and provision of clothes, subsistence and instruction without cost is the latest plan of the war department for the students over 18 years of age who enroll in the students army training corps at A. and M. college, according to a telegram received by President Bizzell. The telegram announces that the latest revision of the selective service act will result in the mobilization of practically all physically fit registrants under 21 years of age within the next ten months, and virtually all students over 18 will be in the field by next June except those pursuing certain technical courses.

All young men over 18 who are planning to go to college this year will register with their local boards in September and be inducted into the students army training corps at College about October 1. Members of the S. A. T. C. will be subject to the pay and discipline of privates and those coming to A. and M. college will be required to pay for their subsistence only from September 18 to October 1 as the war department will provide for contract for their housing, subsistence and instruction after their enlistment in the S. A. T. C.

The student soldiers will be kept under strict supervision and observation to determine which of them are qualified for future officers and technical experts. Transfers will be made from time to time to officers training schools or to college for further training. The college enrollment will be kept at uniform strength by continued admissions from secondary schools or by transfer from depot brigades. There will also be vocational sections of the S. A. T. C. recruited by calls from local boards.

"Every possible effort will be made to accommodate all students who apply for admission and who are qualified to enter," President Bizzell said. "The unusual advantages offered under the new war department regulations and the provisions of the new national service act promise to result in the largest enrollment the college has ever known."

THRILLING STUNTS ARE DONE BY AMERICANS IN OFFENSIVE.

With the American Army in France, Sunday, Sept. 1.—An incident of the fighting at Juvisy occurred during a reconnoitering tour by a sergeant. He remembered a shell hole in which there had been a German machine gun and made his way to it. The sergeant took the machine gun and drove out the Germans from a nearby quarry. The gun was placed in position and the Americans opened fire on the quarry, after which 47 Germans came out of the limestone cave and surrendered. An American corporal captured 17 Germans. He found them in one end of a trench. A squad of his men was nearby but not with him. The corporal, who speaks German, as do many other members of his organization, shouted to the occupants of the trench to surrender. The Germans thinking they had been surrounded by a superior force, did the bidding of the American.

Two artillery pieces were captured. The Germans were attempting to withdraw them when the American machine guns were turned against them. The horses dragging the guns were shot and the drivers and gun servers either were killed or captured. It was learned today from prisoners that a majority of the German trench mortars have not been used in the present engagement, to any extent, their crews all being fagged out.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if cross, sick, feverish, constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt. Adv.

GERMANY BEGINS TO FEEL STING OF DEFEAT.

Washington, Sept. 2.—Germany's growing realization of what the allied victories in France and Flanders mean continues to be reflected in the change in tone of the German press. An official dispatch today quotes the following from the Cologne Gazette:

"The struggle going on on the southern front becomes every day greater and more formidable. The greatest German offensive can not even be compared to the present fights. We must not let the relative calm reigning in some sections deceive. Formidable forces are gathered there. Are these troops in need of rest or are they designed for fresh fights, ready to attack on the first opportunity?"

This paper conceded that it does not understand Foch's strategy and adds: "Our staff must take the necessary dispositions to meet any painful eventualities."

From the Basel National Gazette this is taken: "The German morale will be irredeemably shaken by the allied victories. . . . The belief in Hindenburg and Ludendorff animated the whole German policy. It was the secret of its power. They have been defeated. The Germans have for generations been brought up in the idea that they are the strongest, and this belief formed the basis of their conception of the universe. If they suddenly find out that they have been mistaken, it is just as if the floor that supports them gave way."

September 12 Set as Day For Registration of All Men 18 to 45 Years of Age

(By Associated Press) Washington, Aug. 31.—President Wilson signed the manpower bill, bringing all men in the United States of the ages of 18 to 45 within the army draft.

Speaker Clark and Senator Saulsbury, president pro tem of the senate, signed the manpower bill shortly after noon today. A waiting messenger took the measure to the white house for the signature of President Wilson.

Thursday, September 12, was set today by President Wilson as the date for registration for the army draft of all men in the United States between the ages of 18 and 45 inclusive.

In a proclamation issued immediately after the signing of the bill President Wilson called upon all men affected to enroll on that day. It is estimated that 13,000,000 men will register. Men without dependents, in good health and otherwise qualified, will be taken first. Youths in their 18th year will be placed in a separate group subject to a special educational program and not be called until the other classes are exhausted. This, however, does not mean that their calling will be long deferred. All men, whether citizens or not, must register.

USED KEROSENE TO START FIRE MOTHER AND SON ARE DEAD

As the result of an explosion of a kerosene can, employed in hastening a fire in the kitchen stove, Mrs. G. Clark Bryan and her son, J. D. Bryan, aged eight, died yesterday at their home in the Kurten neighborhood. The funerals were held this afternoon, Rev. J. J. Tatum officiating, with interment in the Reliance cemetery.

The Bryan family had been working in the field during the morning, picking cotton, and as the noon hour approached Mrs. Bryan and the boy went to the house to prepare dinner. She is supposed to have been in a hurry to get the dinner started and to hasten the fire poured oil from the can onto the small blaze which had started in the stove. The usual thing happened, the fire igniting the oil in the can and causing an explosion which covered her clothing and the flood with burning oil. The boy does not appear to have been seriously touched at that time, but ran outside to call his father and then ran back into the house where he made efforts to drag his mother into the open air and save her life. In doing so he is supposed to have inhaled the flames from the burning clothes of his mother and his death ensued shortly afterward.

The kitchen was damaged some from the fire. Mrs. Bryan was badly burned and death ended the most excruciating suffering about 2 o'clock.

She was about 30 years of age and was born in Texas, the daughter of Mr. and Mrs. Jake Holland. Surviving her are the husband and three children.

If there is any need for additional families in the Bryan district, kindly advise and we will direct you where to send representatives after them."

MAD DOG VICTIMS AT AUSTIN DOING NICELY

Roy Vick has received word that the youthful patients sent to Austin for treatment against rabies are all doing just as nicely as could be expected. Two of his children, the little daughter of Clarence Vick and the son of W. S. Wilson, Jr., were all taken there, the three mothers remaining with them and doing light housekeeping in quarters near the Pasteur institute. The children were bitten by a Spitz dog belonging to Mr. Wilson but none of the bites were much more than scratches and the skin on the Wilson boy was not even broken. As the dog was of the snappy kind they thought little of the slight bites until they had incidentally conferred with a veterinarian from the college who advised that the dog be killed and the head sent to Austin. By that time the animal was taken sick which led to the inquiry. They took the advice that night, received a telegram the next morning stating that rabies were present and they immediately hastened to Austin. The children have not been sick from the treatment, as is very often the case during the first week, and are doing splendidly.

GIRLS! LEMON JUICE IS SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth, so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach freckles, sallowness and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. Adv.

REPUBLICANS FILE COUNTY TICKET WITH THE COUNTY CLERK

Republicans of this county have filed with County Clerk Ferguson a list of candidates for county offices to be voted upon in the regular election in November. A notable feature is that J. A. Meyers, who was nominated for state treasurer, has been placed on the county ticket for county judge. While the Republican vote is not sufficient to make any material difference, it is doubtful if one man can legally be a candidate for two state offices.

The communication notifying the county clerk of the action of the Republicans of the county is as follows: Bryan, Texas, Aug. 28, 1918.—To Hon. H. O. Ferguson, clerk of the county court of Brazos county, Texas:

This is to certify that on the 3rd day of August, 1918, the Republicans met and held a Republican county convention and nominated the following county ticket for the above party, and I, as Republican county chairman for said party, ask that the following names appear on the county ticket for the Republican party:

County Judge—J. A. Myers.

District Clerk—John Daly, Jr.

Precinct Officers—Justice of the peace, precinct No. 5, H. M. Myers; constable, precinct 5, C. H. Hayes; commissioner precinct 4, John C. Wilson.

PRESIDENT ADDRESSES LABOR AS FELLOW ENLISTED MEN

Washington, Sept. 2.—All Americans are addressed as fellow enlisted men of a single army, of many parts, but commanded by a single obligation, by President Wilson in a labor day message made public last night at the white house. That object is to win the war, "the war of all wars which labor should support and support with all its concentrated power."

At first, the president says, this hardly seemed more than a war of defense against military aggression; now it is clear that it is more than a war to alter the balance of power of Europe; that Germany was striking at what free men everywhere desire and must have, the right to determine their own fortunes.

Labor day, 1918, is supremely significant, he declares, because: "The laborer is not only as much needed as the soldier. It is his war. The soldier is his champion and representative. To fail to win would be to imperil everything that the laborer has striven for and held dear since freedom first had its dawn and his struggle for justice began."

AMERICAN PRISONERS IN GERMANY TOLD WHAT TO WRITE TO HOME FOLKS.

Colonel Churchill, chief of the military intelligence branch of the general staff, directs the attention of American editors to recently published letters from American prisoners of war in German camps in which the prisoners speak of the excellence of the food and general treatment of the prisoners.

An officer of the military intelligence branch who spent two years of the war in Germany, reports that there are certain rules laid down for all prisoners in letter writing. The price they pay for the transmission of their letters is that they must state that they are well treated, and that the food is good and that they are contented. The letters of the prisoners are carefully censored at the camp, and any statements made contrary to the rules laid down for letter writing simply means destruction of the letter.

It is therefore concluded that any information coming from American prisoners in Germany is absolutely unreliable and should not be published in American newspapers or magazines as in any way authentic.

It is urged that all editors give the above very earnest consideration in handling prisoners' letters that may reach them in any way whatever.

SHAW VICTORIOUS IN THE DRAWING OF LOTS FOR THE JUSTICE OF PEACE JOB.

The Democratic county executive committee, outside of canvassing the returns of the run-off primary of August 24, the results were practically as published in The Eagle, drew lots to settle the tie vote cast in justice precinct 2. In that precinct E. U. Peters and Ab Shaw each received four votes in the first primary, the largest number received by any of the several names written on the ballots. In the run-off primary they each received 61 votes. In the drawing of lots Mr. Shaw received the long straw and was declared the party candidate. As the Republicans have not yet put up any candidate in opposition he will probably have no more ties to contend with this year.

BRAZOS BOHEMIANS RAISING FUNDS FOR THE CZECHO-SLOVAKS

For the purpose of doing their part in furthering the Czech-Slovak movement in Russia and on the western front, the Bohemians of Brazos county are to meet at the Bohemian hall in the western part of Bryan immediately after the church hour Sunday. Church services will be ended about noon, after which the Bohemian auxiliary of the Red Cross will hold a meeting and discuss the progress of the work of raising funds and contributing to the national fund.

The Bohemians of Brazos county have formed an organization of the National Czechs and have elected Jacob Sramek president and Frank Zubik secretary. This organization has been in existence for something like three years, but prior to the entrance of the United States into the war it worked quietly because of our neutral attitude. After our entrance into the war President Wilson and other governmental authorities, not comprehending fully the racial ambitions for complete liberty of person and nation in the Bohemians and among the Bohemians everywhere were rather slow to place official endorsement on the movement of these Americans. A tentative endorsement was obtained, however, in acquiescence in the formation of a Czech unit on the western front to fight with the French armies. Then came the diatribe in Russia and the rising of the Czech-Slovaks who, as Austrian soldiers, had become prisoners of war in Russia, largely through what amounted in fact to desertions. Dr. Maszyrek, head of the American Czech organization, returned from Russia after having sent a good many of these Czech prisoners from there to France and the Italian border, a movement that was stopped by German submarines. He advised the Czechs to remain where they were in Russia and he came to the United States, placed the situation before President Wilson, convinced him of their loyalty to the cause of liberty and their intense hatred of the rule of Hapsburg and the Hohenzollerns. Since then the Czechs have moved openly in this country and are now raising a huge fund for the support of the Czech soldiers and for speakers and newspapers and the maintenance of the organization that weak-kneed individuals of their race may be aligned. Several speakers have been here and the Bohemians of this country have been aroused to work.

The quota Texas Bohemians are to raise is not less than \$25,000, but they of Brazos county expect it to reach not less than \$50,000. Cash contributions have been received from the different communities and arrangements are being made to hold a big bazaar at Smetana September 18 for the purpose of raising more money. Also there is to be a big district bazaar at Fort Worth some time next month. The best products shown at these bazaars will be taken to the big state bazaar to be held at Taylor October 17 and 18. There products of the soil and the farm and of the kitchen and sewing room are to be exhibited and sold. Among the big features will be bales of cotton, contributed by several growers in each community, and these will be auctioned, it being the hope and expectation that fancy premiums will be obtained from patriotic Bohemians and other Americans who want to assist in the movement to assist the allies win the war in the way they propose it shall be won. This Taylor bazaar is to be in fact a state affair, as the exhibits will be from all the Bohemian communities of the state.

It is to discuss the Smetana bazaar and the Taylor bazaar that the Sunday meeting here will be held. Also there will be reports from the committees that have solicited contributions and thereby will be discovered the number of Bohemian men in this county, now estimated at around 500, and also the number of slackers who have been put on the black list, probably totalling about ten. Their names are written in the black book and their adherence to the house of Hapsburg is well understood.

The Bohemians object to that as a national name, claiming it is not correct. The correct name is Czechs. They have been punished by the Aus-

trian emperor because they have had ambitions for liberty, and among the other indignities placed upon them is the changing of their national cognomen to Bohemians, because they occupied Bohemia. They have been subjected to all sorts of mistreatment and in the beginning of the war they were placed in the front ranks where they might be killed, but instead of that they surrendered to the Russians and as events turned out they formed the nucleus for the army that promises to save Russia from herself. With this as a nucleus President Wilson agreed to send American troops to Russia in conjunction with Great Britain and Japan. The Czech-Slovaks are of the same race as the Bohemians and speaking the Russian language are the better qualified to assist the allies in convincing the Russians, particularly those who have had no schooling, that the allied movement is simply one of friendly aid and has no designs upon the country.

Dr. Maszyrek himself is half American, having married a Chicago lady while in exile in this country. He was engaged in political activities in Bohemia in opposition to the Austrian government, and conditions made it unsafe to remain there longer. In fact, he was sentenced to be hung. He escaped to England and there received notice that he was to appear at a certain place at a certain hour on a certain day for the purpose of being hung. He preferred to live in Chicago and there he went and met the lady who became his wife. He is now an old man but a very active one and leader of his people.

FLORIDA MAN SAYS TANLAC SAVED HIM

Couldn't Remember When He Had Had a Well Day Until Tanlac Restored His Health, Declares Samuel Lutz.

"When I started on Tanlac I hadn't seen a well day since I can remember, but now I feel as well as I did 40 years ago," said Samuel Lutz, residing at 603 Park street, Jacksonville, Florida.

"My liver and kidneys worried me for over 40 years," he continued, "and I never felt as well and strong as other people. My back hurt most all the time, I was troubled with indigestion so bad that my stomach would swell up with gas and make me dizzy and short of breath. I was very bilious and suffered awfully with catarrh, so that I could never sleep to do any good."

"I am feeling so fine now, since I began taking Tanlac that I am going to take a trip to Baltimore and I'm going to take my bottle of Tanlac right along with me. I never expected to find such absolute relief in any medicine as I found in Tanlac. I am now beginning to gain back my weight and strength, my kidneys and liver are alright at last, my digestion is good, and I sleep like a log. I just feel better than I have in many years."
